# RATE BILL IS IN THE ASSEMBLY

Senate Passes The Measure By Unanimous  
Vote Of That Body Yesterday.

## WHITEHEAD BOWS TO MAJORITY

Made The Strongest Plea Against Certain Portions Of  
The Measure, But Was Defeated--

Merton Left.

[SPECIAL TO THE GAZETTE.]  
Madison, Wis., May 19.—The assembly will quickly concur in and the governor will sign the railroad rate commission bill which was passed by the unanimous vote of the senate last night, on motion of Senator Kreutzer to suspend the rules.

Governor La Follette will go to the senate at Washington. Lieut.-Gov. James O. Davidson will succeed to the office of chief executive of the state of Wisconsin and will doubtless be a candidate for election to that office for a full term next year. But he will be one of a goodly number who have the gubernatorial bee buzzing in their political bonnets.

**The Situation**  
This is the situation as left by the all-day debate in the senate over the amendments proposed to the railroad commission bill to establish a powerful commission to regulate rates and traffic in Wisconsin. If there is any anti-La Follette element in this situation it is that the political opponents of the governor have determined upon the plan proposed long ago by some stalwart advisors, who declared that the only way to get rid of La Follette was to "let him have his own way, for he thrives on opposition."

**Forensic Contest**  
In the strenuous and eloquent forensic contest that raged all day Thursday in the senate, there was not a note of direct opposition to the La Follette principle, for which he has rendered the Wisconsin republican party these many years. The nearest approach to direct opposition was the attempt of Senator Whitehead to secure amendments that, accepting as true the charge of Senator Hudnall, would weaken the proposed commission so much as to practically invalidate the entire law. However, even Senator Whitehead, before action had been taken upon all of his amendments, announced that he proposed to vote for the final passage of the bill, although he said he might do so with some doubts and misgivings. His temper was that of one who accepts the inevitable, abides by the verdict of the people, although to do so does not conform with his own judgment. He accepted the mathematical impossibility of ten senators outvoting 22.

**Merely an Attempt**  
The debate on the rate bill was in brief a series of attempts by a minority to secure amendments. One after another senators other than those of the rockribbed administration number assailed the La Follette breastworks, and always there was Senator George B. Hudnall of Superior ready with sharp sword of argument and legal preparation to keep the defending majority fast in line, and not once was there a change made in the bill as reported by the committee, except to change a figure that had been neglected by a stenographer in copying the committee report. First Senator McGillivray sought to have Railroad Commissioner Thomas made a member of the proposed

## CHINAMEN UNITED TO GAIN PROTECTION FROM LAW

Claim That Their Deportation Is Illegal--  
Ask For The Right Of  
Admission.

Cleveland, Ohio, May 19.—Back of an appeal which will be taken in the federal court in this city, which involves the Chinese exclusion law, comes the information that the Chinese government has instructed its subjects in America to band themselves together with a view to protecting their rights. The orders from the Chinese government instructing the Chinese in America to organize have been issued through Sir Cheng-tung Liang, Chinese minister to Washington.

**Basis of Appeal.**  
The appeal to be taken here is in the case of a Chinaman who has been ordered deported from the United States in conformity with the Chinese exclusion law. J. P. Dawley, who has been engaged as counsel for one Chinaman, will argue that inasmuch as the treaty between the United States and China upon which Chinese exclusion law is based has expired there is no longer any exclusion law in existence. Half a dozen other Chinamen are involved in the decision. It is said that Chinamen from all over the state are interested in the outcome of the appeal. Should Judge Taylor uphold the order of the deportation appeal will be taken from his decision to the supreme court of the United States.

**Started by Prince Pu Lun.**  
The organization, according to Ben Lee, dates since the visit of Prince Pu Lun to this country a year ago. Mr. Lee of Indianapolis, one of the most prominent Chinamen in the United States and a member of the royal family, is said to be the active head of the association in this part of the country, receiving instructions from Sir Cheng-tung Liang, Chinese minister to Washington. Ben Lee denied that there were any Chinese Masonic societies engaged in this, but that all members of the race alike were united without regard to their affiliations with any of the Six Companies.

board, then Senator Stevens sought to have the entire commission elected as judges at the spring election, then Senator Rummel made a feeble attempt for compromise by having the first commission appointed and after that elected. All met defeat, not more than ten votes being mustered for the proposed changes. Finally came Senator Whitehead with a list of brief, but highly important amendments and after the senate had disposed of these in the negative, a completely harmonious situation appeared as though a new drop had been let down over the scene of controversy. Senator Kreutzer moved to suspend the rules and the bill was passed and sent over the way to the assembly. Even Senator Wright, who has not hitherto been known to vote for any measure that had a suspicion of La Follette flavor, was in the unanimous vein. The assembly will amend the bill if it be found necessary to dot an "i" or cross a "c," but no more.

**Strong Argument**  
While Senator Whitehead was silent when the debate threshed out the proposition of elective or appointive commission, he nevertheless made the strongest argument that went to the details of the bill on the opposition side. This reference to opposition should be explained as meaning the inclination to amend the bill as reported by the committee, for there was no direct opposition to the passage of a railroad rate commission bill. Senator Whitehead himself announced that he had been enlightened, but not entirely convinced by the able arguments presented during the debate, and therefore he chose not to vote on the North substitute, preferring to wait and make an effort to have the bill amended in accordance with the suggestions he had to offer. He said that he had carefully investigated the subject of railroad rate regulation and had arrived at conclusions at variance with the terms of the committee bill. He said he would try to convince the senate that he was correct, but failing in that he purposed to vote for the passage of the bill, even though he did it with some reluctance and misgivings. He proposed that the commission be not burdened with the regulation of commodity rates, suggesting the insertion of the word "substantially" in this connection as relieving the commission of a great burden. Senator Hudnall said that this simple word was what confronted the interstate commerce commission and made that body powerless to do effective work. Senator Whitehead proposed that the interstate classifications be applied in Wisconsin to the exclusion of other classifications. He argued that this would avoid confusion. He desired to strike out references in the bill to explicit powers of the commission, declaring that the bill gave general large powers to the proposed board and that explicit reference was unnecessary. He also proposed amendments changing the machinery regarding appeals and stays of execution of the decisions of the commission.

## DOUBLE PERSONALITY DID NOT SAVE HIM

George H. Wood Sent to Prison for  
Thirty Years for Murder-  
ing a Man.

[SPECIAL BY SCRIPTS-M'RAE.]  
Somerville, N. J., May 19.—George H. Wood, a New York ironworker, being tried for the murder of a grocer, George Williams, today pleaded guilty to murder in the second degree and was sentenced to thirty years in prison. The case attracted wide attention, owing to the alleged "double personality" of the defendant.

## EARTHQUAKE KILLS FIFTEEN PERSONS

Village of Brussa in Turkey Is  
Wrecked and Inhabitants  
Killed.

[SPECIAL BY SCRIPTS-M'RAE.]  
Vienna, May 19.—An earthquake at the village of Brussa, Turkey, yesterday destroyed twenty houses and killed fifteen persons.

## SPARKS FROM THE WIRES

The actual work of construction of the McKinley monument, for which the people of the nation have given \$500,000, will be begun at Canton, Ohio, within two weeks.

Professor Asaph P. Hall has resigned the chair of astronomy and as director of the observatory at the University of Michigan, and Professor W. T. Hussey of Lick observatory, California, has been elected as his successor.

The Chadwick homestead in Cleveland, Ohio, was disposed of at public sale yesterday, the highest bid being \$35,000, made on behalf of the Savings Deposit Bank and Trust company of Elkhart, Ohio, the holder of a mortgage on the property.

A receiver for the Matthews Consolidated State company, a New Jersey corporation, and the Matthews State Machine company, a Maine concern, was appointed by the United States circuit court in Boston yesterday because both have failed to pay the interest on their bonds.

In the criminal court at Washington, D. C., Attorney Worthington yesterday filed a motion for a separate trial for George W. Crawford in the case of Machen, Lorenz and Crawford, charged with conspiracy to defraud the government through the purchase of supplies for the post-office department.

Joseph Gane, a half-breed farmer of Eau Claire, near Menomonie, Wis., murdered his wife yesterday, and now stands guarding his house with a gun and resisting arrest.

The trial of George H. Wood at Somerville, N. J., was given up yesterday to expert medical witnesses for both sides who testified as to Wood's responsibility or the lack of it. Charles Dolman of Fargo, N. D., a laborer, was stabbed to death early yesterday. He had been in Moorhead with Clara Clark, who is under arrest. She declares the murder was committed by Nick Miller, with whom Dolman had quarreled.

## MURDERER CAUGHT BY HIS OWN BOMB

Laboring Man Evidently Seeking  
to Kill the Governor of  
Warsaw, Killed.

[SPECIAL BY SCRIPTS-M'RAE.]  
Warsaw, May 19.—At noon today two detectives gave chase to a poorly dressed workman, whose actions aroused suspicions. In trying to avoid the officers the man fell and a bomb, which he had concealed in his pocket, exploded, killing the workman, the two detectives, and a few who happened to be passing. It is believed the workman was lying in wait for the governor general who was expected to pass that way shortly.

## HARLAN CHOSEN ONE OF THE MODERATORS

Women Claim to Have Discovered  
Mormon Plot in Idaho to  
Defeat Dubois

[SPECIAL BY SCRIPTS-M'RAE.]  
Winona Lake, Ind., May 19.—Justice Harlan of the supreme court this morning was named as vice-moderator of the Presbyterian assembly. The convention this morning devoted its special time to receiving reports of special committees. A general campaign for Sabbath observance will be started by asking the druggists in every large city to close on Sunday. The Women's Board of Missions, of which Mrs. D. R. James of New York is president, will convene this afternoon. Several hundred women are in attendance. A hot discussion on polygamy is expected. Mrs. James in an interview said the board received information that the Mormon church party is in a scheme to defeat Senator Dubois of Idaho and steal the entire state "machinery." It is also seeking to secure eight United States senators.

Gunshu Pass, May 19.—The Chinese reports say the Japanese are sending large reinforcements to Korea, presumably for a movement against Vladivostok. Heavy rains have ruined the roads, preventing military activity in increasing the troops.

**PERCY CHURCH DISLOCATES  
ANKLE WHILE PRACTICING  
BROAD-JUMP LAST EVENING**

Class Day Exercises of Graduating  
Class at Evansville Given  
Up in Consequence.

[SPECIAL TO THE GAZETTE.]  
Evansville, May 19.—Percy Church, the son of Rev. James Church, formerly of Janesville, fell while practicing the broad-jump at the high school building here last evening and badly dislocated his ankle. He is a member of the graduating class and in consequence of his injury their class day exercises have been given up. Church was the high point-winner in the Evansville-Janesville dual track meet here last Saturday. His absence from the track will greatly cripple the Evansville team and hopes of winning points in the state interscholastic meet are shattered.

[SPECIAL BY SCRIPTS-M'RAE.]  
Sioux City, Iowa, May 19.—Dr. Washington Gladden at the Congregational church convention said: "Never again will the Congregational church accept a gift from John D. Rockefeller and as fast as the millions are found to have employed illegal methods to gain wealth they will be put on the blacklist, being members from which no gifts will be accepted."

## STATE NOTES

The commencement week at Carrol college will open on June 11.

While mending a wire fence in a field at Menasha, Fred Zueldorf was so badly gored by a bull that he died. Fire consumed the large dry kiln of the Menasha Woodmenware company at Ladysmith on Thursday, the loss being \$15,000.

George Gerst, the 8-year-old son of George Gerst of Wausau, while playing near a sawmill was crushed by a falling log.

Chief of Police Pfister of Racine has begun a crusade against girls who visit wine-rooms and the proprietors of such places.

The annual reunion of the Fifth Wisconsin Regiment Volunteer Infantry association will be held at Waukesha on June 27.

More than twenty fishermen have been arrested about Clintonville for illegal fishing, and fines amounting to \$500 have been paid recently.

The Black and La Crosse rivers are still rising, and grave danger is expected at La Crosse, especially in case of further rainfall. The Mississippi-river continues to rise slowly.

# NO SETTLEMENT OF STRIKE YET

Teamsters Check Efforts To End Labor Troub-  
les In Chicago By Adjournment.

## PRESIDENT GOMPERS TO RETURN

Another Session Will Be Held This Evening, When  
Definite Steps May Be Taken For  
Arbitration.

[SPECIAL BY SCRIPTS-M'RAE.]

Chicago, May 19.—T. J. Cavanagh, secretary of the Chicago Team Owners' association, expressed his belief that the teamsters' joint council tonight would accept the arbitration proposition by the owners. At a meeting which adjourned early this morning the teamsters' council postponed until tonight action on the question to arbitrate on the delivery of goods to boycotted stores.

**If They Yield**

If the teamsters yield this point it will be because they want to confine the strike to its present limits. President Gompers returns to Chicago Saturday night from Dayton, where he went to address a labor meeting. On his return he will continue his effort to find some solution of the present tangled strike problem. So far his efforts have seemed to be futile.

**Flour Famine**

A serious flour famine threatens Chicago as the result of the spreading of the strike to the wholesale flour manufacturers and dealers. The employers showed their hand today when Pleser Livingston Co. discharged twenty-eight drivers who refused to make deliveries to boycotted stores. Other firms are expected to take similar action.

**Sees Settlement**

Mayor Dunne declared today he had received from a reliable source information that the strike would be completely settled within forty-eight hours. It is reported that before leaving last night Gompers informed him and President Shea the strike must be called off. Rumors that a settlement is impending were current at noon, but no definite information is obtainable.

**Nothing Doing**  
Levi Mayer, the attorney for the employers, said he knew nothing of the reported strike settlement. President Reed of the Furniture Drivers' union, a member of the strike committee, said he did not believe the report authoritative.

**Means End of Strike.**

Should the teamsters' council at its meeting tonight accept the arbitration offer of the team owners it is a logical conclusion that the beginning of the end of the strike will be in sight. An adverse decision of an arbitration committee compelling the drivers to deliver goods wherever their employers should desire would be the signal for raising the strike against all business firms now affected except the State street department stores, the express companies and the coal concerns.

After waiting in the Sherman house three hours for an answer from the teamsters' meeting the committee of team owners, consisting of T. J. Cavanagh, George A. Probst and Robert W. Cooper, finally received the message over the telephone that no action had been taken by the teamsters. They expressed satisfaction over the news, thinking the fact that the council had considered the arbitration proposal at all was encouraging.

**Submit List of Umpires.**

So confident were the teaming men that the arbitration idea will prevail at tonight's meeting that they submitted a list of names to the teamsters, out of which list an umpire shall be selected for the arbitration committee. The men mentioned were Mayor Dunne, ex-Judge A. N. Waterman, Judge Murray F. Tuley, William Prentiss and W. P. Rend. The other two members of the board would be drawn one each from teamsters and team owners.

There was a bitter fight in the teamsters' meeting over the acceptance or rejection of the offer. President Shea vigorously opposed what he termed "a distinct concession." Other delegates to the council, believing the plan offered an easy solution of the predicament of the strikers, were as staunchly in favor of it.

**Teamsters' Council Has Power.**  
"I have not changed my attitude towards arbitrating our right to refuse to make deliveries," said President Shea after the meeting. "The council has the power, however, and may do whatever it sees fit to-night."

While the team owners were seeking a plan of arbitration, President Gompers left the city, promising to return Saturday evening. His efforts to bring together the contending forces in the larger battle did not succeed, yet he did not lose hope. He made a statement which declares that the employers are unyielding and that he will advise nothing but "peace with honor" for the union.

This, however, was interpreted by one of Mr. Gompers' closest advisers not to mean that the forces were so far apart as they would seem to be and that the modicum of yielding on the part of the merchants was not unlikely.

This adviser of Mr. Gompers said he expected peace by the early part of next week.

**Statement by Mr. Gompers.**  
Mr. Gompers' statement, summing up his investigation of the strike: "I have not had any conference with Mr. Mayer since the one at the Grand Pacific hotel. There is no change in the situation of which I am aware."

**Tokio Expects Battle.**  
Tokio, May 19.—The reported departure of Vice Admiral Rojdestvensky from Honkoo bay northwards renews the popular expectation of a naval action in the near future. It is believed that Admiral Rojdestvensky having filled his coal bunkers and resupplied his fleet is now in condition to assume the aggressive, if he so desires.

It is the opinion of some that Rojdestvensky may make a demonstration in the vicinity of the islands of Formosa and Pescadores, and then enter the Pacific en route for Vladivostok. This is, however, purely speculative. Everything depends upon Admiral Rojdestvensky's plans, which, while as yet undisclosed, may include an extended stay in southern waters.

**Fleet Is Sighted at Sea.**  
Singapore, May 19.—The Russian fleet was in latitude 13:30 north and longitude 111:30 east, about 120 miles northeast of Cape Varella, coast of Annam on the morning of May 16, according to a report brought here by the British steamer Hong Wan I. The German steamer Segovia sighted forty-two Russian ships forty miles from Cape Varella May 15 steaming slowly north.

The Daily Telegraph's correspondent at Tokio telegraphs as follows: "The Japanese admiralty considers that the Peresviet, Poltava, Retvizan, Pobieda, Bayan, and Pallada can all

## EQUESTRIAN WONDERS.

From All Parts of the World Assembled at the Great Adam Forepaugh-Sells Circus.

It is unquenchably claimed that never before have so many of the greatest riders in the world been brought together for a single performance as in the program of The Great Adam Forepaugh and Sells Brothers Combined Shows this season. The most expert artists from the four corners of the earth have been successfully induced to unite in the enormous bill of these supreme shows. The three rings of the huge circus are filled with equestrian acts of novelty, peril and exclusiveness from the time the acrobatic program begins until the ending, two hours later. All the nerve-quickening deeds of familiar circus history are re-enacted with superior grace and deftness, and much more of dexterous bounding, picturesque poising, thrilling tumbling and subtle daring are rendered with astounding ease and precision. These renowned riders appear to upset all natural laws and are proclaimed to have reached the limit of human possibility. There are whole companies in some acts, while other startling features are evolved by groups or individuals. It is a common sight to see four superb riders moving as a unit, jumping from the ground as one person and landing on the back of a galloping horse at the same instant. Saddle riders in beautiful menage numbers, daring horsemen of the plains, ruthless cavalrymen, savage warriors, reckless huntmen, proud militiamen, fashionable esquires, madly riding jockeys, savage duellists and other equestrians of imposing ability and historic fame are to be seen in the hurried movement of the tremendous program. Foremost among these masterful equestrians may be mentioned the seven O'Briens, who appear in America for the first time; Oscar Lowanda, conceded in professional circles to be the greatest rider in the world; then there are such splendid performers as Harry Lankin, Martino Lowanda, Mme. Correa and Miss Mamie Kline. There are too many to mention in a brief newspaper notice. There are two hundred performers in all and fully one-half of these are equestrians of world-wide fame.

Will exhibit here May 30.

Opportunities at Oacoma, S. D. The town of Oacoma, Lyman county, South Dakota, is located on the west bank of the Missouri river, opposite Chamberlain. With the completion of the Lyman county extension of the Chicago, Milwaukee & St. Paul railway, Oacoma will become the distributing and shipping point for a populous and productive area larger than the state of Vermont. The town site is beautiful, well drained, has the advantage of railway and steamboat transportation and is bound to become one of the most important trade centers of South Dakota. About June 1 there will be a sale of town lots offering excellent opportunities for profitable investment. Business men who are seeking good locations for mercantile enterprises will do well to identify themselves with Oacoma. Watch for dates of excursions for the sale of Oacoma town lots.

## ...Forty Years Ago...

Janesville Daily Gazette, Friday, May 19, 1865.—Handsome. Don't the sodiable last night, at McKey's Hall, in behalf of the Milwaukee Soldiers' Home, netted the handsome sum of \$58. It was as pleasant a party as has assembled for many a day.

Circuit Court.—The case of T. M. Dickenson and William Riley vs. Rock County, has been engaging the attention of the court today. The appellants sued the county for wolf bounty, when it was alleged that the wolves were foxes.

A Good Thing.—At the last quarterly meeting of the Rock County Agricultural Society a resolution was passed to hold during the year, at the Fair grounds in this city, four sale or exchange days, the time to be designated by the committee to whom the matter was referred. The first day fixed upon was the 26th of the present month. The object aimed at is to allow those who have stock, or anything in which the farming community is interested, to sell or which they may desire to exchange, to come together at these appointed times and affect the transactions, if possible. It may be readily seen that these occasions may redound to the great advantage of those who participate in them, and it is to be hoped that a lively interest in them may be manifested in everything which will promote the agricultural interests of Rock county.

The News.—The report of the killing of the rebel General Forrest is confirmed. The news of Joe Johnston's surrender caused great joy among Forrest's troops which so enraged him that he ordered six of his men shot. The next day his men took vengeance on him. It is well.

Kirby Smith and other Texan rebels are said to be negotiating with Maximilian.

Gen. Banks is getting in hot water at New Orleans. Official corruption prevails there.

Nearly all of Gen. Sherman's troops are moving into camp on the other side of the Potomac.

Mrs. Lincoln is to leave Washington for Chicago next Monday.

A large union meeting was held at Raleigh on the 11th inst., at which great joy was manifested at the prospect of peace. At night there was a general illumination and a large Union procession.

New Style About Funerals.—An exchange says: "Among the new fashions in New York, at present, is this, that no lady goes to the grave with a husband, child or friend. Women are compelled to sit solitary in the house, while the men attend the burial. Many lament the heartless custom, but fashion is inexorable."

## METCALF TO QUIT THE CABINET

Times of Official Life and Years for Business Career on Coast.

Washington, May 19.—Victor Howard Metcalf, secretary of the department of commerce and labor, has filed his official position and is planning to retire so as to engage in business in California. He has not found life as the head of an executive department as congenial as he expected. There is neither glory nor money in being the head of a department that deals with as prosy subjects as come under the control of the secretary of commerce and labor. When Mr. Metcalf left congress to take the vacancy created by the retirement of George B. Cortelyou he determined that he would not return to congress, hence his going from the cabinet will be followed by his entry into active business life.

To Install Block System. Columbus, Ohio, May 19.—Announcement is made by the management of the Hocking Valley railroad that the company has decided to install a modern block signal system on the Toledo division of the road between Carey and Toledo a distance of fifty miles.

German Diplomacy Wins. Berlin, May 19.—The German government appears well satisfied with the results recently attained by the mission to Fez. The sultan of Morocco has refused all the French requests except that 2,000 troops be placed under French instruction.

Special Election Ordered. Springfield, Ill., May 19.—Gov. Deen has ordered a special election for Saturday, July 1, to fill the vacancy caused by the death of Charles B. Gainsey, judge of the twelfth judicial circuit.

Death of Magazine Editor. Philadelphia, Pa., May 19.—Dr. Frederick W. Speers, editor of Book-lovers' Magazine, is dead at his home in Lansdowne, a suburb of Philadelphia, after a short illness.

Immigrants Are Detained. Montreal, May 19.—Trachoma is prevalent among immigrants this year. Fifty sufferers from the disease were refused landing upon the arrival of the Donaldson line steamer Athenian and fifty others were taken off and sent to the detention sheds at Quebec.

Involuntary Bankrupts. Philadelphia, Pa., May 19.—Albert Herbst & Co., woolen manufacturers have been adjudged involuntary bankrupts. The petition was filed by the creditors and represents an indebtedness of over \$50,000.

Lost in the Mountains. Bristol, Tenn., May 19.—J. Harvey Wood, a Bristol merchant, is mysteriously missing in the Virginian mountains, where Edward Wentz lost his life.

Italian King Receives American. Rome, May 19.—Victor Emmanuel received in private and most cordial audience Senator Henry Cabot Lodge of Massachusetts, showing great interest in and knowledge of American affairs.

## NOT IN THE DENTAL COMBINE.

These are trust busting times. There exists an IRON-CLAD agreement among the Dentists of Janesville whereby, over their written signatures and upon their word of honor, they AGREE TO OBTAIN CERTAIN PRICES FOR THEIR WORK.

What is this but a TRUST? There's a dentist in Janesville who stands out from this combine.

Let us see how this works: The combine agree to charge \$10 for Gold Crown.

Dr. Richards, being free to make his own prices, is making these gold crowns, guaranteed to be equal in every respect, for just \$5 each.

He says he had rather work for a LARGE number of patients at a MODERATE profit, than to work for only an occasional man and have to charge him so much that EVEN HE won't come again.

## THE AD VALOREM SYSTEM.

The ad valorem system of taxing railway property is found to be confusing and bills are now pending in the senate which seek to solve the problem. Cities with terminal stations, shops and equipments, like Milwaukee, claim that the property is local, and shall be so treated, while other sections of the state claim that the property should be treated as a unit and taxed accordingly for the benefit of the state.

If the ad valorem system is to be used, there is only one just way to apply it, and that is by an interstate system of assessment and taxation. There is nothing local about railway property. Every car, depot or side track is a part of a great system.

The rolling stock which passes through a state is not the property of the state, and the terminal station belongs to the company and not to the city where located.

This principle applies to all classes of railway property. The ad valorem system of taxation, so far as a single state is concerned, is a farce and Wisconsin will so find it, after trying the experiment.

Under the old license system it was possible to find out what railroads were earning in certain states, but no single state can determine what amount of railroad property belongs to an individual state. The nearest approach is through the unit plan. Let the state share and share alike, the same as under the license system.

## APPOINTEE OR ELECTIVE.

If the governor is determined to have an appointive rate commission and this is the only thing that stands in the way of his accepting a seat in the senate, let him have it. There will be other governors and other legislatures, who will be disposed to remedy some of the evils which a reform administration has foisted upon the state.

The plain duty of the present legislature is to cut the strings which tie the governor and let him go. The commonwealth managed to jog along before he was discovered and it will manage to exist after he has gone.

The railroads may curtail improvements, but they will not desert the state, and after the present spasm of reform has had its run conditions will again be normal.

Governor La Follette is like Bryan in many respects. Both are men of strong personality and superb leadership, but neither can delegate to second hands the mouth which has contributed so largely to success.

The governor possesses an ambition and has been given the opportunity to enter the arena of national politics. Nothing should be done to prevent his ambitions being realized. Give him an appointive commission and let him go.

## THOMAS W. LAWSON.

The name of Thomas W. Lawson is as familiar today in this country as the name of the President. His articles on "Frenzied Finance," which have been running through Everybody's Magazine for the past year, have brought him prominently before the public and for a time he was regarded as the greatest exponent of dishonesty in high finance that the country has ever produced.

His attacks on Rockefeller and the "system" were so virulent, that thinking people were impressed with the notion that the man was inspired with some motive other than simply a philanthropic desire to expose corruption.

Among other men who attempted to look beneath the surface and analyze the character of Lawson, was Mr. Hapgood, editor of Collier's Weekly. After careful investigation he wrote a sketch of the man and his methods, under the title, "How Much of a Liar is Thomas W. Lawson?" This article, which gave the history of Lawson from childhood, and accused him of being a disgruntled stock gambler, was published in a recent number of "Collier's" and Lawson replies in the latest issue of that publication. Mr. Hapgood replies to Lawson in the same issue and the principle argument on both sides appears to be that both men are liars of peculiar type.

Whatever good may become of this kind of abuse will be negative in character. The last resort of a con-

trover is always an acquisition of untruthfulness, and when it reaches this point it fails to be of public interest.

That Lawson has exposed some rottenness, both in the oil business as well as in banking and insurance, is generally conceded. That he has had a purpose rather than the public good, is quite generally believed.

He claims to have spent \$600,000 of his own money to get before the people, but fails to state what he has made on the side. When the atmosphere clears, Rockefeller will still be in business and Lawson will be forgotten.

## THE GENERAL PAPER CO.

The publishers of the state are interested in the investigation of the General Paper Co. now going on in Milwaukee under government supervision. This company was organized to control the output and price of paper in the west and for the past two years it has been successful.

A similar organization exists in the east, and the two territories are not permitted to come in competition. This monopoly does not effect the general public but it does effect the publishers of the country. They are obliged to pay any price demanded and in case of advance to pocket the loss. Papers like the Gazette are paying \$2.35 for print and furnishing the paper to patrons at the same rate as when they paid \$1.85.

The larger papers which use from one to three cars a day, but at about 2c in the west, and 1 1/2c in the eastern market.

There is just cause for complaint on the part of the small publishers, and if the present investigation is successful they may find some relief.

## PRESS COMMENT.

Evening Wisconsin: Fastidiousness as to the head-gear is reported to be the cause of the strike of the Janesville police. A "man milliner" ought to be called in for consultation.

Milwaukee Record: Wisconsin, once known as conservative, is now hailed as a freak state. All due to the bacilli of populism with its parasites of hatred and socialism.

Madison Journal: It looks like a settlement of the Chicago strike. Mr. Gompers is on the ground. The threat to tie-up funerals is the latest.

Duluth News-Tribune: The Washington Post mischievously and maliciously observes that there are no editorials in the Chicago papers these days on mob violence in the South.

Green Bay Gazette: How would a joint debate between Dr. Washington Gladden and John D. Rockefeller do as an attraction on the Chautauqua circuit this summer?

Milwaukee Sentinel: So the new straw hats are to have "much narrower brims this year than last." These posky hat makers always take care that the thrifty man wearing a last year's hat looks like a guy.

Chicago Inter Ocean: It may interest our friends in Iowa, Nebraska, and Wisconsin to learn that Italy is also flooded, so that recent rains cannot be due to any inherent weakness in our republican form of government.

Madison Democrat: Governor La Follette, like Cobden, won his greatest victory by advertising—by putting effective literature before the vision to reach the understanding of the people.

Racine Journal: Seven hundred and fifty-three killed or wounded in the awful judgment against the drivers and owners of automobiles in and about New York city. It would seem that there are enough perils in the city life now without adding unnecessarily to them.

Sheboygan Journal: La Crosse people have an idea that because twenty cars of sugar are being held there, the trust is trying to force up prices throughout the United States. La Crosse is a small town, and its citizens have no idea how small a portion of the country twenty carloads of sugar would sweeten.

Chicago Tribune: "Let everybody either come inside or go home," said Rev. Sam Jones in beginning a recent sermon. "Don't sit out there and yawn like a lot of buzzards. Those that have any sense will come in and find seats. The idiots will please get out the grounds." If this gentle admonition didn't bring the yawpers inside nothing could have done it.

Oshkosh Northwestern: From the trend of events and recent expressions, both through the press and on the platform, it is evident that a political campaign in this state may soon be fought out on temperance issues. And to tell the truth this issue is probably of even more importance than some of the "burning questions" that have been used to stir up the people in the past.

Chicago Record-Herald: The London Saturday Review says the trouble in Chicago is due to a general movement on the part of the nervous of the United States to get white men's jobs in retaliation for the lynchings that have taken place in this country. The Saturday Review is entitled to a vote of thanks for thus clearing up a matter that has been rather puzzling to a good many people right here in Chicago.

La Crosse Leader-Press: In the past few days strong support of Colonel P. A. Connelley for department commander of the G. A. R. has made itself felt. Both of the Milwaukee articles favoring his candidacy, hailing him as the leading candidate in the race. The other principle candidate will be Duncan McGregor of Platteville and it is now believed by men in close touch with the Grand Army situation that the La Crosse man is considerably in the lead over his Platteville competitor.

Beloit Free Press: Milwaukee papers have a trouble of their own. The other day at Fond du Lac the Rev. T. M. Hare of Milwaukee told

the Anti-Saloon League people that "Milwaukee leads all cities of the country in brutal offenses—crimes committed under the influence of liquor." The usually mild Sentinel in commenting on this strange statement resorts to unadorned English, saying: "He simply told a falsehood, and he cannot be acquitted of the offense on the ground that he lied in a good cause." And then, in defence of the city's good name, the Sentinel cites lots of statistics to show that the honor or rather dishonor of being in the lead belongs to Detroit.

Chicago Chronicle: William F. Vilas, former United States senator from Wisconsin, former postmaster general and afterward secretary of the interior in the first Cleveland administration, lives in Madison, Wis. He is a millionaire now. One of his holdings in his home town is a hotel building of an ancient type of architecture. Madison is a city of pretensions. In summer it is a resort. In winter the legislature holds sway. On several occasions some of the other capitalists of the town have agitated the proposition of erecting a hotel building commensurate with the state capital's pride. Wherever the proposition has been made Colonel Vilas has met it with a counter proposition to erect a finer building for hotel purposes. The patronage of the town is not sufficient to warrant two big hotels, consequently it has none. Colonel Vilas is master of the situation and the old hotel continues to do the business at the old stand, Colonel Vilas being the beneficiary.

Rockford Register Gazette: There seems to be a serious question over the state as to whether the civil service law for police and fire departments passed by the legislature two years ago, is good and binding. At any rate in several cities where the question has been raised the municipal officials have gone ahead with removals just the same as if the merit act were not on the statute books. The law was supposed to protect the heads of the police and fire departments, as well as the men under them, the intent of the farmers being that they could not be disturbed by a change of administration so long as they did their duty and no charges were filed against them. When Mayor Barr succeeded Mayor Crolius at Joliet this spring, one of his first acts was to oust the chief of police, fire marshal and all but six of the police force and the court later sustained him in his action. The latest case to come up and one which will probably result in a test of the law in court is from Decatur, where the new mayor appointed an entire new police force, with the approval of the city council. The members of the old force refused to resign and are continuing on duty, claiming protection under the merit law which was adopted by a vote of the city. They claim they cannot be removed without trial.

## GASOLINE STOVE EXPLODES; WOMAN ESCAPES CREMATION

Mrs. Moses Delany Saved From Burning to Death by Neighbors Sunday Last.

Mrs. Moses Delany barely escaped cremation last Sunday in a gasoline stove accident. She was heating some water and while out of the room the breeze extinguished the flames. Returning she found a pool of liquid on the floor but thinking that the kettle was leaking scratched a match to relight the burner. The gasoline immediately ignited and had it not been for the prompt work of the neighbors Mrs. Delany would have been seriously burned if not killed. The house was damaged considerably.

## ANTI-TRUST BILL ADVANCED BY SENATE THIS MORNING

Assembly Meets and Then Adjourns and Little Work is Accomplished.

Madison, May 19.—The senate advanced the McGillicuddy anti-trust and combination bill by a vote of 17 to 10. The bill increasing circuit judges' salaries by \$400 a year was advanced. The assembly met and adjourned immediately. The senate went through their calendar, laying over most of the important measures.

## NO SETTLEMENT OF THE STRIKE YET

(Continued from Page 1.)

In the afternoon Mr. Gompers said: "Mr. Kesner, the general manager of the Fair, is an old personal friend of my family and myself. His father came here to see me this afternoon. He made a personal visit, but incidentally mentioned the strike. He said his son wanted to meet me. Knowing him for years I went to the store and talked to him. Of course, we discussed the strike. I say this because I do not want any of my moves kept secret. Nothing resulted from it, or from any conference that I have had so far.

Men Will Not Surrender. "Without discussing the merits of the strike," continued Mr. Gompers, "from what I know of the temper of the men engaged I am sure the union will not make a complete surrender. I know I will not advise it.

"If some honorable adjustment cannot be reached, so that a better understanding can be enlisted for the future, the two sides might as well remain in their present position. There is no law nor any reason why the men on strike cannot make individual applications for their jobs at any time in the future.

"I have done my level best to help to bring about an adjustment of conditions by agreement. I have no right to say that my efforts have failed entirely. On the contrary, as soon as I return from Dayton Saturday night, efforts for adjustment will be resumed. The progress thus far will be renewed.

"In the meantime I have sent a telegram to Secretary Morrison at the headquarters of the American Federation of Labor, ordering him to send out a circular for financial assistance to every union in the country.

"If an adjustment is reached the request for funds can be discontinued easily. On the other hand, if no honorable settlement can be reached soon, and the contest is prolonged indefinitely, the American Federation of Labor proposes to render the teamsters' every financial assistance possible."

## BULL FIGHT ON CAMPUS OF COLLEGE AT ITHACA

President Schurman of Cornell permits Exhibition of Spanish Sport for Benefit of Athletic Fund.

Ithaca, N. Y., May 19.—President Schurman shut down Cornell university Thursday so that its 3,000 students might go to a bull fight. The president announced his intention some days ago and it got into the papers. Immediately there came remonstrances from all over the east. One was a strenuous protest from a fellow college president, but Cornell's chief proved faithful to the Spanish sport and the bull fight was held at noon, with every student a spectator, while grumbling professors sat alone in their empty classrooms.

The bull fight was not pulled off on the quiet, but took place right on the quad of the university campus, where a big ring was staked off and surrounded by tiers of seats for the student spectators.

Jose Antonio Ostos, a student from Oaxaca, Vera Cruz, Mexico, was the chief matador. He was assisted by three fellow countrymen. The bulls came off the farm of the Cornell college of agriculture and had been specially fed for a week to make them ferocious. Twenty-five cents was charged to see the bull fight, and so many clamored for admission that it had to be repeated twice.

Senior Ostos proved a skilled matador and after worrying the maddened bull for a quarter of an hour, to the great delight of the spectators, would dispatch him in short order. On one occasion, however, he was thrown from his horse, but was saved from being gored by timely assistance of his fellow matadors.

A number of the women students of the university, many of whom were among the spectators, fainted at this sight and had to be carried out. The occasion of the bull fight was the annual "spring day" frolic at Cornell. All of the proceeds went to the aid of athletics and more than \$2,000 was cleared on the bull fight after the dispatched bulls were paid for.

## Women of the Kaffir.

The Kaffirs believe that a woman is a necessary appendage to a household; the women care for their huts and do all the housework, while the men watch the cattle. They do not always marry as young as they like, and yet the youngest and most attractive girls often go to the ugly, old men with plenty of money. A man is not worried because he can not win the favor of the girl he wants. Her likes and dislikes count for little.

Inconsistency Feminine. She gowns herself expensively. Attractive as she dare. To please the most fastidious. She always has a care; Then feels it an outrageous thing. This creature debonair. If anyone indulges in. A futile little stare! —Bertha Randabaugh, in Lippincott's.

"Bank" and "Bankrupt." The word bank is another form of bench; in medieval times the banker was the money changer who sat at his bank, or bench, to transact business. The penalty for a defaulting banker was to be expelled from his guild and to have his bench broken; hence the term bankrupt.

## MRS. LETTIE KLEIN AWARDED LARGE SUM

A Rock County Resident Obtains Heavy Damages From Her Mother-in-Law.

Mrs. Lettie Baldwin-Klein, at present an employee of the Fairbanks-Morse Manufacturing company at Beloit, has just been awarded four thousand dollars damages by a Louisville, Kentucky court from her mother-in-law, Mrs. Ida P. Klein, whom she sued for alienating her husband's affections. Mrs. Klein is well known here and formerly lived in Clinton where her parents still reside. Her wedding was a big social event at Clinton about two years ago, but the mother-in-law made life so miserable for her that she had to quit the Louisville home. The mother repeatedly told her and wrote to friends of the young woman in the city that she would break the marriage. She succeeded in turning the affections of her son and the suit for \$25,000 damages resulted. While the verdict is not so large as the friends here would like to have it, the satisfaction of winning the suit is immense.

## EUROPE IS BLAMED FOR TUBERCULOSIS

State Veterinarian Roberts Says Cattle Have Been Infected by Importations From Across the Sea.

"If anybody can suggest any method other than the one we are pursuing in disposing of cattle afflicted with tuberculosis, I would like to have them do it," said State Veterinarian E. D. Roberts this morning. "This cutting up of diseased cattle every day is not very pleasant work. There is a bill now before the legislature regarding the importations into this state. It provides that no breeding or dairy cattle can be brought in unless accompanied by the tuberculosis test. Minnesota passed a very stringent law a few days ago and Montana and other states have put similar legislation on the statute books. No cattle can be brought to this country from Europe or shipped into Canada nowadays without being tested. If the law had been in force some years ago, we would be having very little trouble now. Inquiries at the packing-houses show that fifteen years ago it was practically unknown. The disease has its origin in Europe. Forty per cent of all the cattle of England and Denmark are afflicted while there is only two per cent in this country. Dr. Patterson of Beloit is inspecting a herd in the town of Turtle and we have recently received reports of herds believed to be infected at Beaver Dam, Menomonie, Manitowish, and are conducting tests in all of those places. The state board of control has recently ordered the testing of cattle kept by public institutions, the Northern Hospital for the Insane at Oshkosh being one of them."

## MISS SHOEMAKER IN DISTRICT CONTEST

Will Decline at Whitewater This Evening—Score or More Rooters Go From Here.

This evening at Whitewater will be held the annual district declaratory contest and the speakers receiving first and second places in the contest will represent the Whitewater normal school district in the state competition at Madison later in the year. Miss Emma Shoemaker, the Janesville young lady who took first at Beloit, and Miss Elinor Parker of the Line city, winner of second position in the same contest, will represent the Beloit league tonight. About twenty or twenty-five supporters went from here today and will, with the boys, assist the young ladies, Miss Greening, who trained Miss Shoemaker on her selection, accompanied her.

**Received High Mark**  
Miss Shoemaker's victory at Beloit was remarkable. She was given first place by all of the five judges and her average marking was 95.15. Miss Parker was marked 90.25, and received but three seconds, one judge placing her third and another fourth. Miss Hodge, the other contestant from Janesville, took fourth place and with one less point on the position marking plan would have been third. Miss Cook aggregating eighteen points and Miss Hodge nineteen.

## FORUM BOYS TO PICNIC

The members of the Forum literary society will picnic up the river tomorrow. The trip will be made in the "Idewick" and the day spent at and around Idewick park. They expect to leave early in the morning and return in time for the members of the party who are juniors to attend the "hard-time" party at the high school building. About twenty boys will compose the party.

## CURRENT NEWS NOTES.

**Police Shot Dog:** In a barn back of the South River street junk-dealer's establishment yesterday afternoon officers Brown and Fanning shot a small yellow dog which had bitten a youth by the name of Hagarty. The pursuit of the canine caused considerable excitement for a few minutes.

**Marriage License:** An application for a marriage license has been filed with the county clerk by William W. Gasman and Elisabeth Spangler, both of Beloit.

**Cavalry Company:** Capt. Moore, while on a visit at Madison recently, learned that the state of Wisconsin is allowed two cavalry companies and has none. The adjutant general suggested that he organize one in Janesville as this city is not represented in the National Guard and he is considering the matter. At least fifty-four members would be required and they would have to furnish their own saddle horses.

**Fishing Is Fine:** H. L. Skavlen telephoned in from Lake Koshkonong to his son, Louis Skavlen, today that the fishing was fine and that a whole boatload of pickers could be secured with little trouble.

## SUTTON A WIZARD AT BILLIARD GAME

Man with no Hands Gave Remarkable Exhibition in Janesville Last Evening.

George Sutton, the phenomenal billiard player whose hands and forearms are amputated just below the elbows, gave an exhibition at the Left-Handed parlor last evening, performing the most remarkable feats with an ease that surprised the onlookers. In a game with a local player of considerable skill he ran 85 billiards on his second turn and had not missed when he stopped playing. Sutton is widely known in Europe as well as in this country, having appeared in exhibitions in England, France, Spain, and other countries. He goes to Paris again in October. Before losing his hands he had never played the game and all his knowledge and skill has been acquired in seven years. At Duluth two years ago a prominent merchant offered him the best suit of clothes obtainable in the city if he would run a thousand billiards in five trials. It was done on the third attempt and the time was one hour and thirty-five minutes. The donor of the suit of clothes was so well pleased that he presented the player with a handsome watch-chain. "The proper distribution of force, good judgment, and a good eye, are essential qualifications for a good player," he says. "Familiarity with the science of statistics may help but it is not sufficient in itself." Mr. Sutton expected to give an exhibition in Rockford tonight.

## BUELL THE GUEST OF VAN HISE TONIGHT

Trying to Secure Credits in University Entrance Requirements for Commercial Studies.

Superintendent H. C. Buell went to Madison this noon, where, together with Superintendent L. D. Harvey of Menomonie and Superintendent C. C. Martin of Wausau, he will be the guest of President Van Hise of the university at supper. These three men were appointed a committee, in the high school principals' department meeting at the last state convention of teachers at Milwaukee, to endeavor to secure entrance into the state university for the high school pupils graduating in the commercial and manual training courses. The meeting this evening is on the invitation of Mr. Van Hise. All graduates with fourteen credits are now allowed to enter the university without examination, but those who follow the commercial or manual training courses in the high school are unable, without a great amount of extra work, to secure the required number of credits, the commercial studies and manual training work not being counted in figuring credits. If this change can be effected all graduates of the high schools in the state will be eligible without examination.

## ATHLETIC BOARD MEETS

Mr. Buell will meet with Mr. Parlin of Wausau and G. A. Chamberlain tomorrow in the Capital city to determine on judges for the state interscholastic track and field meet, these men comprising the athletic board of control.

## MONTHLY SHOOT OF THE LOCAL GUN CLUB

Emil Roessling Was High Gun for the Day—Party Went to Monroe This Morning.

Emil Roessling was the high gun for the day at the meeting of the Janesville Gun Club, breaking forty-five birds out of the first fifty. The meet was well attended. This morning William and John McVicar, Charles Tallman, Dr. Gibson and Emil Roessling went to Monroe where the final contest for the Peters cup is being held. Club teams from Janesville, Albany, Brodhead, Monroe and Burlington are entered for this match and the winning team will be the absolute owners of the trophy. There are seven events being shot off with several minor prizes aside from the purses to be won. The shoot is being held under the auspices of the Southern Wisconsin Trappers' League. The scores for yesterday's shoot of the Janesville Gun Club are as follows:

Emil Roessling	55	77
Roy Pierson	50	24
John McVicar	108	90
George Drummond	82	45
Bolton	20	15
Chas. Tallman	50	39
Dr. Powell	60	23
Dr. Hart	45	15
Wm. McVicar	85	69
E. Mead	75	30

## MYERS TO RUN AGAINST MACKIE, THE ILLINOIS HALF-MILER, TOMORROW

Stands Chance of Winning and Will Surely Secure Second Position at Champaign.

Harold Myers, the Janesville member of the university track team, together with the Wisconsin athletes, passed through here this morning on the way to Champaign, where tomorrow afternoon they will contest in a dual meet with the University of Illinois team. Though the Badgers were severely drubbed by Chicago last Saturday there are prospects of winning the meet tomorrow and all feel confident that they will at least make a good showing. Myers will run in the half-mile, with Mowry and Richards to help him, against Mackie. The latter should win, but may possibly lose. On the track Wisconsin will beat Illinois, but in the field events the "Suckers" outclass the Madison men. Devine of Evansville is the only Badger who is expected to make a first in the field.

## WOODMEN WARNED BY WILLIAM F. KIRK

Of the Danger of the Flowing Box at the Milwaukee Convention.

William F. Kirk, the humorist, has left Milwaukee for New York, where he expects to have a wider field for his work. "I have had something up my sleeve to say to the Modern Woodmen of America when they came to Milwaukee," said Mr. Kirk, "but inasmuch as I am not to be here when they arrive I have appointed William F. Hooker my press agent, and have left in his charge a little advice, with instructions to spring it just as soon as I am out of town. It will have plenty of time to sink deeply into their souls, as it should." This is Mr. Kirk's offering:

**TO THE WOODMEN.**  
Woodmen, spare that beer!  
Touch not a single stein;  
Perhaps you'll think it queer  
That I should make this wine.  
But I have seen men pinched  
For getting in a row;  
From truth I never flinched  
And I must tell it now.

Beneath the brewery's shade  
I lingered as a child;  
The brew that brewery made  
Was fresh and undefiled.  
But children are not men—  
Behold my furrowed brow;  
I was not poorly then—  
You ought to see me now.

So Woodmen, spare that beer!  
Go easy on the mugs;  
Don't go away from here  
Like loaded human jugs.  
My father, one of thee,  
Left money to his frim;  
To youth you sheltered me,  
And I'll protect you now!

WILLIAM F. KIRK.

## BOTH JUNIOR LEAGUE BALL GAMES TO BE IN MORNING

## CARLOAD OF TRAMPS SHIPPED SOUTHWARD

Some Evil Looking Characters Were Driven Into an Empty Box-Car by Police Last Evening.

Officers Brown and Fanning conducted a big roundup of tramps and professional bad men in the railroad yards last evening. The first group they came upon heaved a few stones in their direction but one or two revolver shots put an end to that kind of warfare. The first gang captured were locked in an empty box-car and others cornered on the viaduct and in the woodyard were hustled into the same quarters. A locomotive headed for the south finally carried the whole consignment consisting of about eighteen out of the city. One of the characters was recognized as "The Jap," a notorious criminal believed to have been implicated in the shooting of a policeman at Fond du Lac some years ago and a number of bank robberies. The local officers believed that the gang had something afoot in Janesville last night.

Of Lydia E. Pinkham's Vegetable Compound, the Great Woman's Remedy for Woman's Ills.

No other female medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles or such hosts of grateful friends as has **Lydia E. Pinkham's Vegetable Compound.** It will entirely cure the worst forms of Female Complaints, all Ovarian Troubles, Inflammation and Ulceration, Falling and Displacement of the Womb, and consequent Spinal Weakness, and is peculiarly adapted to the Change of Life. It has cured more cases of Backache and Lumbago than any other remedy the world has ever known. It is almost infallible in such cases. It dissolves and expels tumors from the Uterus in an early stage of development. Irregular, Suppressed or Painful Menstruation, Weakness of the Stomach, Indigestion, Bloating, Flooding, Nervous Prostration, Headache, General Debility, quickly yield to it. Womb troubles, causing pain, weight and backache, instantly relieved and permanently cured by its use. Under all circumstances it invigorates the female system, and is as harmless as water. It quickly removes that bearing-down feeling, extreme lassitude, "don't care" and "want-to-be-left-alone" feeling, excitability, irritability, nervousness, Dizziness, Faintness, sleeplessness, flatulency, melancholy or the "blues" and headache. These are sure indications of Female Weakness, or some derangement of the Uterus, which this medicine always cures. Kidney Complaints and Backache, of either sex, the Vegetable Compound always cures. Those women who refuse to accept anything else are rewarded a hundred thousand times, for they get what they want—a cure. Sold by Druggists everywhere. Refuse all substitutes.

James Pepper has a new cream separator.

The enlargement of the livery barn here is a great improvement.

Albert Law has a dandy new carriage and outfit.

### Lewis & Clark Exposition

It is a noteworthy fact that the Lewis & Clark exposition is the first world's fair to be held west of the Rocky mountains which has secured the aid of the government. And it is also surprising what an interest is manifested in the exposition by the people of the east. They see in the exposition an opportunity to visit the western country at a greatly reduced expenditure of money, and not only see the exposition itself, but view the wonders of our western scenery, and witness the great resources of the northwest and the opportunities afforded. The Great Northern railway passenger department has been flooded with inquiries as to the exposition, and it augurs well for a big travel through the northwest this year.

### JURY ACQUITS FARMER ENGLE

Manslaughter Case at Marshall, Mich., Ends in Liberty for Defendant.

Marshall, Mich., May 19.—The jury in the William A. Engle manslaughter case returned a verdict of not guilty, after deliberating for an hour and a half. Engle was thereupon discharged. The case came to a close quickly when the defendant's counsel decided not to introduce further evidence. Each side was allotted two hours for argument. Engle, a farmer, was tried for shooting a neighbor who invaded his yard and refused to leave when ordered to do so.

When doctors fail try Burdock Blood Bitters. Cures dyspepsia, constipation, invigorates the whole system.

Takes the burn out; heals the wound; cures the pain. Dr. Thomas' Electric Oil, the household remedy. No man can cure consumption. You can prevent it though. ## An Interesting Fact

Although it is a good deal better, bread made from

## MARVEL FLOUR

Does not cost any more than bread made from cheap, inferior flour.

### BECAUSE

The quantity and quality of gluten (the essential element in flour) is so much stronger and better in choice, hard Spring wheat, (the only kind used in the manufacture of Marvel Flour), that more loaves of bread are possible to the sack than from flour made of inferior wheat, milled by a cheap, inadequate milling process.

## MARVEL FLOUR

Is the most reasonable flour to be had. Your grocer, if he is conscientious will recommend it and any grocer is authorized by us to allow any housewife to try Marvel Flour three times if she wishes, and if not perfectly satisfied, to bring back what flour is left, and full purchase price will be returned.

If your grocer cannot furnish you, drop us a postal and we will see that you are supplied.

### Doctors' Beards Must Go.

Des Moines, Iowa, May 19.—Dr. J. F. Kennedy, secretary of the state board of health, has issued an ultimatum to Iowa doctors and surgeons to remove their beards, contending they are unsanitary and carry disease germs.

### Call's Crank Pastor.

Peoria, Ill., May 19.—The Central Christian church which advertised for a crank pastor, has decided to call the Rev. S. S. Lappin of Atlanta, Ill. He asserts that he fills the bill, as he is 35 years old, married, an evangelist, a lodge man, a mixer and a crank.

### FATHER LEONARD'S PROOF.

Writing from Cambridge, N. Y., Rev. Fr. D. J. Leonard says: "A young lady in our parish was pronounced to be going into quick consumption. She took Father John's Medicine and is now well and grateful for her recovery."

**BISHOP SPALDING IS STILL ILL**

Returns to Peoria, but is Placed in Care of Hospital.

Peoria, Ill., May 19.—Bishop John L. Spalding returned Thursday from Hot Springs, where he has been for the past month for his health, following an attack of paralysis. While slightly improved, the bishop's condition is yet unsatisfactory, and he was taken to St. Francis hospital, where he will continue treatment. He is able to walk a short distance with help, but is very feeble. He has no use whatever of his left arm, which he carries in a sling. William Doyle, a physical culture teacher returned with the bishop and will remain with him. He has been working with the physicians, and to him more than to the doctors Bishop Spalding attributes his improvement.

**Arrest Women Counterfeiters.**

Philadelphia, Pa., May 19.—Secret service men arrested three women and a man, who are charged with counterfeiting silver coins. Many spurious half-dollars, quarters and dimes, besides the paraphernalia for manufacturing the money, were found.

**Theatrical Managers Combine.**

New York, May 19.—Fifteen theater managers of stock companies in cities between Providence, R. I., and Chicago have formed an organization which will be known as the Association of Theatrical Stock Managers.

**Travels at Age of 119.**

Wheeling, W. Va., May 19.—Lewis Young has left West Virginia at the age of 119 years, and has started to Oskaloosa, Ia., where he will make his home with his daughter.

**Anarchist to Be Released.**

Pittsburg, Pa., May 19.—Alexander Berkman, who attempted to kill H. C. Frick during the Homestead strike in 1892, will be released from the West Penna. penitentiary July 24.

Fire destroyed four warehouses belonging to the Farmers' Store company—Nic Abramson, A. J. Edmundson, and J. M. Hall—at New Auburn, causing a loss of nearly \$15,000, with small insurance.

**Uncle Sam Wanted That Cent.**

J. W. Gilstrap and W. J. Clutch of Woodstock have been notified by the government of the United States that ex-Postmaster Haffenden of Woodstock is short in his accounts to the amount of one cent, and that either Mr. Haffenden or his bondsmen will have to make up the amount and send it to the Postal Department at Washington, at once.—Portland Oregonian.

**The Unappreciative Wretch!**

Contemporary asks, "Is a woman's kiss worth \$50,000?" Not with lamb chops at 75 cents a pound.—New York Herald.

## MILK IS HEALTHFUL.

and is recommended to nearly every one. There are as many different kinds of milk as there are kinds of people--some good, some bad, some indifferent. Milk from the most sanitary dairy may be bad because there is one cow that is not up to the standard. Our process of PASTEURIZING kills the effect of that one defect.
